

# Gallery Rebels

This curriculum map provides an overview of what your child will be learning across the curriculum this half term. Learning will be linked to our focus topic - Gallery Rebels. We will...

...as **artist** we will have the opportunity to paint using different styles and different inspirations, exploring colour as we go. We will make sketch books to record our work and will end by creating one piece for an exhibition.

...explore the paintings of a number of artists from the 1800s up to today. Create an exhibition of portraits, influenced by our studies.

...as **writers** we will write descriptive evaluations of paintings. We will also explore suspense writing, whilst studying a science fiction story as our class book.

... in **maths** we will carry out mathematical investigations as well as continuing to build our mental arithmetic skills and knowledge of times tables.

...in **PATHS** we will be learning about body image and how the media affects our perception of ourselves. We will also spend time preparing ourselves for transition to secondary school - addressing concerns and worries, together.

...as **scientists**, we will be exploring electricity to make a variety of components function at the same time.

...we will be taking part in athletics activities as well as a cricket tournament in **PE**.

In **RE**, we will continue to consider the relationship between religion, peace and conflict.

...as **musicians** we will be taking part in choosing, and rehearsing, songs and music for our leavers' assembly at the end of term.

... in **computing**, we will be researching artists, and creating presentations of class work.

...in **French** we will be learning and practising vocabulary of "manger et bouger".

This curriculum map is correct at the time of going to print but is subject to change. If you have any questions about our curriculum, please speak to your child's class teacher.
