

Title of topic: **The Enchanted Woodland**

Year 1 – Summer Term 1

Topic focus: Science

This is the knowledge organiser for our topic. It includes some key facts and vocabulary about our topic. Please share this with your child to help them develop their knowledge and understanding of our topic.

A woodland is a large area of land covered in trees.

Woodlands are **habitats** for a wide range of animals and plants.

Woodlands provide food for lots of different animals.

Carnivores eat other animals.

Herbivores eat plants.

Omnivores eat both animals and plants.

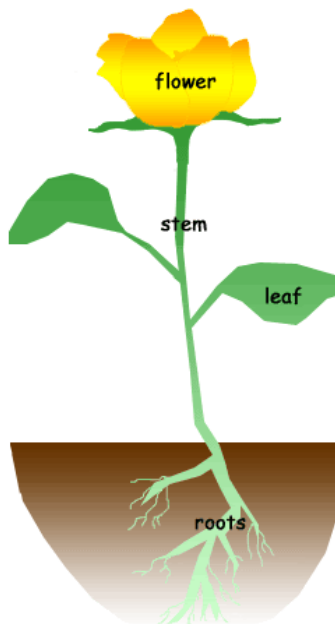

Animals and plants need water, air, food and shelter to survive.

Woodland plants include; snowdrops, bluebells and foxgloves.

Woodland animals include; foxes, squirrels, owls, toads, newts, grass snakes, worms, ground beetles.

Woodland animals can be; **mammals, birds, amphibians, reptiles and invertebrates.**
