

# Scrumdiddlyumptious

This curriculum map provides an overview of what your child is learning in Year 3 this half term. This half term our topic is Scrumdiddlyumptious.

## Maths

As mathematicians, children will be developing their knowledge of place value by the value of digits in 2 and 3-digit numbers. Children will be focusing on addition and subtraction and learning new formal methods for these calculations. Children will also be using their knowledge to begin to solve reasoning problems.

## Humanities

As historians, the children will be learning about James Lind and what makes him a significant individual. As geographers, children will look at the distance food travels and where it comes from. Children will name countries in the northern hemisphere and neighbouring EU countries. Children will also look at the importance of Fairtrade.

## Science

As scientists, the children will look at the 5 main food groups and think about the importance and characteristics of a healthy balanced diet. The children will consider scientific enquiry and look at fair testing.

## English

As readers, the children will be reading 'The Magic Finger' and completing activities to aid understanding. As writers, children will write in role and write as a character of the book. As writers, children will learn about the features of instructions and writing their own recipes. Children will create information posters linking to our topic on healthy eating.

## Art/DT

As artists, the children will sketch different fruits and look at the textures they have. Children will print a two colour logo and design food packaging. As designers, the children will identify foods which have been produced in different places. Children will design, prepare and make a pizza during a wow day.

## French

As linguists, children will be starting French lessons. Children will learn about France and French cities as well as finding out where French is spoken around the world. Children will learn how to introduce themselves and say how they are feeling. They will also learn to count to 10.

## Learning for Life/RE

In learning for life lessons, the children will be following the PATHS/RSHE scheme. We will be looking at our feelings and emotions and how we manage these.

In RE, the children will be learning how people express commitment to a religion/worldview in different ways.

## PE

As sportspeople, the children will be focussing on Hockey and Netball.

## Computing

In computing, the children will be learning about computer systems and how networks work.

## Music

As musicians, the children will begin weekly ukulele lessons with a music specialist. The children will also learn music through Music Express.
