

Predators

This curriculum map provides an overview of what your child is learning in Year 3 this half term. This half term our topic is predators.

Maths

As mathematicians, children will be developing their knowledge of multiplication and division. The children will then move onto learning about length and perimeter.

Humanities

As geographers, children will be taking part in local studies of birds and locating these on a map of the British Isles. We will learn about migration of birds and will think about a bird's eye view.

Science

As scientists, children will learn about food chains and about the hierarchy of animals. Children will also study skeletons and how they support the body for both animals and humans. We will look at how a muscle works within the body.

English

As readers, children will be reading the story 'Fly, Eagle, Fly' and will be taking part in activities to develop our understanding of the story. As writers, children will learn about the features of letters and write letters in role as a character. We will think about story-mapping and will also look at poetry too. Children will write non-chronological reports using research from computing. We will write our own bird of prey leaflets.

Art/DT

As artists, children will be exploring sketching and observational art. Children will be learning about different features and patterns as well as using collage and a range of materials.

French

As linguists, children will be continuing French lessons. Children will study the unit 'les fruits' and will learn the names of fruits and vegetables.

PSHE / RE

For PSHE, the children will be following the PATHS scheme which focuses on managing emotions, communicating effectively and developing problem solving skills. In RE, children will be learning about philosophy and how people make moral decisions.

PE

As sportspeople, children will develop their skills in dance and stretching/flexibility.

Computing

In Computing, children will be revisiting online safety as well as using the internet for research. Children will research information about birds of prey for their non-chronological report writing in English. They will also look at animation and how to use an app to create a stop-frame animation.
