

How we are going to improve our school during 2021 and 2022.

The adults in school are going to make sure that all children understand their learning and achieve their best. Sometimes that will mean working on one area of our learning which we find tricky.

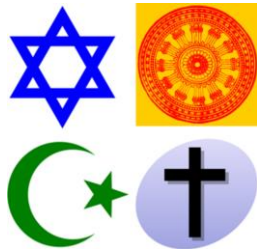

We are all going to excel in writing including having exciting ideas and superb handwriting.

Our youngest children will learn to read through a new scheme and some lovely new books.

We will develop our understanding of all religions through exciting and engaging RE lessons.

We will
be kind,
try our best,
and do as we are asked by the adults in school.
