reign

heir

Key facts

The first castles in England were built by **William the Conqueror** and the Normans when they invaded in England in **1066**.

They needed a quick, easy and sure way to defend all the land they'd just won, and castles helped them to this.

Key facts

Isambard Kingdom Brunel (1806-1859) was one of the most inventive engineers of the 19th century. He is responsible for building some amazing structures.

Parts of a Castle

Key facts

A castle is a where a lord or noble such as a king or queen lived. They used to use earth and timber to build castles but then changed to stone.

A bridge is a structure built over a road, river or railway that allows people or vehicles to cross from one side to the other. Bridges can be built from a range of materials.

Key facts

Queen Victoria's reign is known as the Victorian age or era.

Queen Victoria was born in 1819 and was crowned Queen aged 18. She reigned for 63 years and 7 months.
